*I totally object to the Moss Vale Plastics Refinery on the basis that I spend a lot of time in the Southern Highlands and I went to school for 8 years in the area. It is one of the most beautiful and serene places I have ever been and to that end I totally object to the building of a plastics refinery. It's a bit of an oxymoron as its to boost recycling rates (environmental reasons) at the same time as destroying agricultural land and indeed clean air in the area.*

*I really hope the authorities who are insisting on this site see common sense and listen to the thousands of people who live in the area. Thank you*
