I am objecting to the plasrefine plant be built on this site.

1. I do not have faith in the

I am very concerned that the plant is close to residential areas in the southern highlands. Having lived there most of my life I know that the highlands wind travels far and wide carrying particles in the air.

Also I am very concerned about contamination into the Sydney and local water ways.

Moving thru moss vale at the moment in a car is congested already and the roads are not well maintained. Having up to 60 trucks a day passing thru will be very detrimental to traffic and the roads.

This is not the right site for this type of industry in moss vale.

Thank you
