[REDACTED]

Dear Sir,
I am writing this letter to oppose the building of the proposed Plasrefine Factory in Moss Vale. I tried to submit a comment on-line, but, (for some unknown reason), it wouldn't go through, so I am using the 'old-fashioned' method. Please don't allow this!

We live here, and we don't want this awful factory in our lovely, beautiful countryside. Why here?

How did a [REDACTED] find out about this particular site? Who does it belong to? Why are they [REDACTED] I have been to most of the public meetings, and have found, despite protests over the last four years, both

(2)
the previous Liberal government, and now, the current Labor one, seem intent on pushing this through, despite local concerns and opposition! It is totally in the wrong place! Too near residents houses!

The only way we've ever found out the true facts of what is happening is through the "MOSS VALE MATTERS" group. GHD, the consultants for Plasrefine, in meetings, come out with the most ridiculous statements, like, "We checked the wind, and it was blowing away from the houses!", also, suggesting "reversing the flow of the Wingecarribee River" so pollution from the washing of the plastics would not end up in Woragamba Dam! Our local MPs and local council are opposed to this! What do we have to do to get someone to listen to us?

Yours sincerely, Mrs. Julia Galter.
