Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: 2576 New South Wales	
Attachment: N/A	

Submission date: 10/28/2024 2:36:54 PM

*As I suffer from a chronic lung disease I am aware of the threat to my health and life span resulting from the air pollution created by this factory. Windy days, especially if smoke or pollen is present, force me to stay inside with air conditioning and air purifiers as directed by my lung specialist. Ignoring airborne pollution increases the likelihood of worsening my lung condition and admission to the hospital for prolonged treatment..*

*The 24/7 operation of this factory with polluting emissions being blown across East Bowral where I live is horrifying and will completely and negatively affect my life. If the factory operates 27/7 I will require isolation in airconditioned/purified air 24/7.*

*My research has shown that there is no safe way this process can be undertaken putting not just myself at risk but shows a complete disregard for the health and safety of people in our community.*
