*Re: Submission for Moss Vale Plastics Recycling Facility*

*Frensham Schools are supportive of any initiative that improves the health of the environment. We are not supportive of projects that might have a negative impact on the environment and consequently our students, staff and community. We note that Plasrefine has referred to our Junior School (Gib Gate Campus) in their promotional materials and this may create the impression that we are supportive of their locally based project. As stated, as an organisation, we are not supportive of any development that could harm our local environment.*
