Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses)</i>
Location: 2576 New South Wales	
Attachment: N/A	

Submission date: 10/28/2024 6:54:54 AM

*Our community is special. We have either been lucky enough to be born and raised here in the beautiful Southern Highlands or have chosen to move our lives here to raise our children away from industry and over populated cities.*

*I object to a plastic recycling centre anywhere in the southern highlands. The environmental impact on our air quality and waterways were one thing, but the social impact of having a large commercial plant of this nature in our special location will be devastating to our local village communities and tourism sector, which so many of us thrive on. Please find another location, so as not to ruin our special piece of paradise.*
