I strongly oppose the application for the Moss Vale Plastics recycling facility. Not only is this proposal unwanted, it defies any environmental benefits. The proposal is unsightly and lacks any positive outcomes for our shire. The impacts of such a facility are not in keeping with local planning expectations of our community. Having previously served on Council for over two decades, working tirelessly for sympathetic and compatible development outcomes, I feel confident that they are not articulated in this development proposal. The consultation around this proposal is also lacking. The proponents have not won the favor of our community, nor have they seriously tuned into local social and environmental expectations. I now that the development proposal is also attracting serious opposition from both the Member for Wollondilly and the Member for Goulburn. I join the growing number in opposition to this proposal and call on the Minister to refuse the application.
