Organisation: N/A	Key issues: <i>Social impacts, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: <i>Redacted</i>	
Attachment: N/A	

Submission date: 10/30/2024 3:57:23 PM

*The proposed site is in the midst of growing regional community, with housing, child care facilities, grazing land and vineyards in close proximity. I am very concerned about the impacts to our local waterways and to our drinking water. I am also concerned about the risks from airborne microplastics. There are significant health, noise and traffic risks to the Moss Vale community, particularly those who live close to the proposed site. As I understand it, there are no planned upgrades to roadways or other supporting infrastructure. I support every effort to reduce, recycle and reuse waste, but the site proposed for this facility appears to be inappropriate and poses significant risks.*
