I would like to object against this development for the following reasons:

- 1) The roads around Moss Vale and the Southern Highlands are incredibly congested with traffic. The increase in heavy and light vehicles created by the Plasrefine Plant would further increase local traffic and further damage the roads*
- 2) The creation of a 4 storey building close to Moss Vale would damage the aesthetic of the surrounding area and would be clearly seen from our house. The noise pollution created by this plant would be a detriment to the surrounding area.*
- 3) The impact on the surrounding people, not only due to noise and visual pollution, but also the harmful affects of processing 120,000 tonnes of plastic annually on people's health.*

The decision to build this recycling plant so close to the local community is an incredibly poor one, and has the potential to create a lasting detriment to the Southern Highlands in the foreseeable future. I have lived in Moss Vale for over 40 years and I am strongly opposed to this development.
