I am greatly concerned with the size, type and the location of the proposed development. Once it has been built it is too late to say it shouldn't have been built there. It is too close to schools, sporting grounds, farming land and people's homes.

Can they guarantee no pollutants will contaminate the water ways and the air we breathe. This site is way too close to the surrounding towns. There must be an alternate site away from towns, that would be more suitable.
