Submission ID: 209312

Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: 2577 New South Wales	
Attachment: Attached overleaf	

Submission date: 10/26/2024 7:42:24 AM

No consideration is ever taken to the people and town impact. These people that approve or run these businesses are not part of our community and do not see the damage this will cause. This facility will increase traffic, increase noise pollution. The most damaging is that there are cases of these facilities causing cancer through air pollution and waste. This is just a profiteering business with no regard to the Southern Highlands Community.

Plastic linked to cancer risk across production, use, and disposal: study

For the first time, a team of international researchers from the fields of healthcare, the ocean and the environment, has sought to quantify plastic's risks to all life on earth, including human health. GettyImages/curtoicurto

In what is considered a landmark study, a team of international researchers has identified cancer risk – and other human health findings – associated with the
