Our region is a growing community in both population and facilities. This growth is providing financial prosperity to our region. If this project went ahead it would have significant negative impacts upon Real estate, our communities and growth in our region. People would no longer see this as an area which is safe, healthy, green, and a beautiful place to raise children.

You may propose that instead it will produce jobs, However what you failed to realise is that it will stop people moving here - we will be losing our environment, our health, our Lifestyles. Our real estate values will plummet, Families will leave Fearful for their children's health, People will stop building homes, Prospering businesses businesses will suffer, People will move away - No one wants this to happen. I strongly object to this proposal.
