We strongly object to this kind of facility in your community when it's smack bang in the middle of a residential area and a location where there are so many schools and children's sport facilities in the area. It will be da heroes simply with the size of vehicles going in/out ~ Moss Vale already has serious traffic issues and poor traffic planning ~ the town need reinvigoration to attract tourists, more residents and more small businesses and something like this will create the opposite effect and will have huge short and long term ramifications. We can't let this facility impact the entire suburb and the health of our citizens in the Southern Highlands. The social and economic impact of this is detrimental to our community. My family objects!
