The proposed plastics recycling facility would be a social and environmental disaster for Moss Vale and the Highlands.

Moss Vale is a historic country town, surrounded by rolling farmlands, vineyards and beautiful gardens. It is a tourist destination and we are a family-focused community.

The ridiculous proposal involves a four story high, 3 hectare site placed incongruously on a road that includes: residential houses, a school and a daycare! The operation would be the largest recycling facility in Australia and operational 24/7. The traffic is projected to be 190 vehicles per day to service this. It is unacceptable.

This proposal is completely at odds with the function, values and needs of our residential community. Please reject the application.
