Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: 2577 New South Wales	
Attachment: N/A	

Submission date: 10/28/2024 8:44:16 PM

This development is not in an appropriate location. The impact on water supply can not be underestimated, microplastics will be infiltrating our water supply not just in the Wingecarribee but also in the Sydney Water Catchment. This will have serious health impacts not only for this generation but for future generations.

The proposed traffic through residential areas is also not in keeping the amenities of residential areas. The proposed location is too close to homes and a child care centre. Moss Vale is already choked with traffic conjection and this project will make the traffic situation even worse. The prevailing winds also means that micro plastics will be spread throughout the Southern Highlands and beyond.

Please STOP this proposed development!!! I
