Submission ID: 210167

Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: New South Wales 2576	
Attachment: N/A	

Submission date: 10/29/2024 5:21:28 PM

*Got this from the school chat:*

*As a concerned resident of the SH I'm sharing this post for anyone that may wish to know more about the environmental & human health impacts of the NSW Govt's approved plastic refinery in Moss Vale. As Aust's largest refinery processing 130000 tonnes of plastic per year it has the potential to significantly impact roads, traffic, waterways & air quality. 74 Beaconsfield Rd MV is not the right site, it's a small residential road, next to the Garvan Institute medical facility, meters from residential homes & within a 5km radius there are 5 schools including Tudor. It's not far from the basketball courts.*

*If you're inclined, you can submit an objection at the Independent Planning Commission website or join me at the public hearing next Monday.*
