A [REDACTED] with no local history, no family connection, no portfolio and moreover NO experience in the plastics industry are looking to build a huge 4 storey site for plastic recycling. Has the Environmental Agency been approached and confirmed that all checks have been made? The leeching from the Wingecarribee river will have a massive impact alone for Sydney Water. Are they aware? Are the Sydney-siders aware?? It's not a case of NIMBY it's a case of good old fashioned common sense. The company involved has NO EXPERIENCE in the industry and as such I have no faith that this will have a good outcome for the Moss Vale or the Southern Highlands
