As an individual living in Moss Vale, it is already difficult enough to get from one side of town to the other with the current traffic and business of life, let alone introducing more traffic and trucks which will only add to that congestion. It will also impact our air quality and wonderful scenery that the Southern Highlands is so widely known for. I play outdoor sports in summer and winter and I would hate to have smog and pollution filling the air as I am trying to play sports and be in my community. I say no to this proposed development as it will affect me, the people who live here now and the people who are yet to come here to live.
