*There has been so many reasons stated in all the applications against this proposal that make it so obvious this is the wrong site !! I am yet to see or hear any positive convincing arguments that say it should go ahead and even after spending many hours reading and attending all the meetings listening, I just can't comprehend that approval has been given by the people we trust to protect us .*

*Please Please listen to our community and the relevant experts and dismiss this site as an option . It's not the right site !!!*
