This facility encroaches significantly on prime residential land.

Its operation has the potential to severely impact waterways with wastage and micro plastic pollution reaching as far as Sydney's drinking water supply. It has far-reaching impact and has not been considered properly.

The operation of this facility would be associated with constant noise, vibration, light, excessive vehicles and semi-trailers placing tremendous stress on local roads and traffic.

The

This plant has the potential to severely impact waterways with wastage and micro plastic pollution reaching as far as Sydney's drinking water.
