I submit my complete abhorrence to the proposal for the development of a plastics recycling plant in Moss Vale.

Firstly I am appalled that the NSW Government with their combined intelligence has not stopped this proposal from the outset. As a lay person reading the proposal I am able to work out this is dangerous and will destroy the fabric of Moss Vale township and it's residents. I have family in Moss Vale whose quality of life will be in jeopardy. I plead on behalf of them and all the other families enjoying the wonderful area they live in, that common sense prevalls.
