I am deeply concerned about the health of my family. It is very concerning when the toxic management is to stay inside. I believe this would impact our local community with a decrease of land value, local businesses would suffer a decrease of the southern highland tourism industry. Not to mention locals moving away. This would absolutely change the Highlands appeal to visitors. I am absolutely shocked this is something that would be considered within our residential area. I pray this does not go ahead as the impact would be enormous.
