*Please, please tell me, why oh why, has Australia become so corrupt ??? This council application has been approved without the local population been privy to anything at all. Just so very, very depressing that money rides above the welfare of the people of our land.*

*No doubt this email will join all the other forms of opposition to this proposal, in the recycle bin, no doubt alot of people will get paid off and that will be it, end of story. I am not against a recycling centre but in the middle of farming land, the question is, who got paid off for that decision?? We will never know, because it is the way things are done these days, cover up over cover up, not the Australia I grew up in.*

*Yours faithfully,*

*Meryl Calver*
