I am against the proposed plasrefine development. I moved to the southern highlands to raise my family and chose the area for its nature, clean air, lack of pollution, lack of traffic. This development impacts me directly - my children attend school in Burradoo and we live in Burradoo, the neighbouring suburb to Moss Vale. I am particularly concerned about increased air pollution and pollution to waterways which I believe will occur with normal functioning of the facility, and increased traffic. Should the site ever malfunction or there be a fire - this would further significantly impact the health of my children. I am against plastic and micro plastics invading our waterways, our bodies, our air. This is not the right site. It will ruin the pristine environment which should be protected!
