I find that the more I read and understand about this proposed development, the more I am against it. Since moving to Moss Vale, I have realised that the winds in this area are phenomenal and I am greatly concerned about pollutants being carried by the winds. I am greatly concerned about our water supply being impacted in a negative way and I am concerned that this proposal has assuredly not been thought through regarding the impact on traffic in the area. Moss Vale already has many, many trucks constantly moving through the township and we do not need more. Quite simply, this is not the place for this development as it is far too near to housing and township.
