As a local resident I have been previously affected by a DA that was not appropriate for the area in which it was proposed and our local community took action against the Council and applicants and won our case in court. I strongly disagree with the DA proposing this type of business to be built in our community. In so many ways it does not fit in the community or fit the location. This type of development needs to be far away from communities and residential communities. The local community around Moss Vale is growing as a residential community with a broad range of ages and demographics. A facility like this will only provide negative impacts on our community. I urge the Council to consider this before making any decisions. I would hope that the Council does not approve this DA and put its local residents and environment first before allowing this development into our community.
