1. *As a traditional custodian of this land I am extremely upset by the thought of ruining our precious land to build a factory that is not only going to affect us but also our environment, animals and roads*

2. *This factory is going to be an extreme fire hazard to our land. Being in close proximity to so many family homes without the proper equipment to put out a fire. This could and will be catastrophic if a fire starts.*

3. *This factory will be built with only 2.5kms separating from the heart of Moss vale. All schools are within a 3km radius of this and it is NOT okay. The air quality will ruin lives and effect people tremendously.*

4. *The endangered platypus lives in the berrima river which will be directly effected if this goes ahead.*

*To me this seems as though the government are not taking into consideration the lives they will be taking and effecting. You will RUIN people's lives. Animals will die. Endangered animals will die. Childrens lives will be effected. The elderly will be significantly effected. You are not taking into consideration anything other than money if this goes ahead. This is NOT THE RIGHT SITE.*
