I live 2 kilometres away from where the proposed development site is scheduled to be built. I am disgusted that I am told to limit my time outside to reduce risk of exposure to carcinogenic substances. It will become an eye-sore to the beautiful scenery we have here in Bowral, and it will ruin what the appeal of this beautiful place has. I go to school less than 4 kilometres away, and going outside is quite literally impossible to avoid for any extended period of time, and are therefore putting myself and other peers at risk of ingesting these harmful chemicals. I strongly object to ALL kinds of implementation of this site, and think it is a horrendous thing to go ahead with. The spokesperson who talked at Moss Vale was atrocious at convincing us, and telling us that it is safe. I will not be told to stay inside more because of the safety and risks of being outside.
