Heritage impacts?

Balickera house and farm – completely ignored.

# Truckin' life on Italia Road

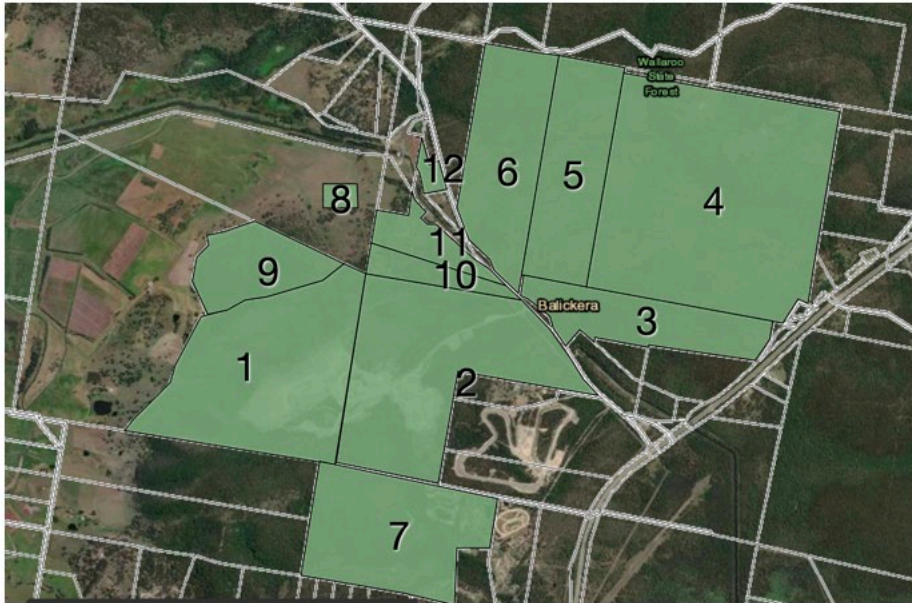

The developers describe that it was a five year process getting the Department of Transport to agree to add more trucks to an already dangerous intersection. However, the proposed upgrade does not solve the problem and is yet to be approved.

# Impacts on Air and Water

# Australia's commitment to halt deforestation by 2030 and net zero targets.

- Currently Australia is the only developed nation on the list of global deforestation fronts.
- Australia has recently joined the Forests and Climate Leaders Partnership and signed the Glasgow Declaration committing to halting deforestation by 2030.
- All levels of government must act consistently with these international obligations.

# Alternatives not explored
