*I oppose the Stone Ridge Quarry Project due to the impacts on biodiversity, air quality and water resources. These negative impacts have been proven by reputable scientific researchers: €œStone Ridge Quarry Project will impact an area of known koala and other threatened species habitat and threaten the efforts of Hunter Water to protect the two threatened microbat species Southern Myotis and Eastern Cave Bat...(Hunter Environment Lobby Inc). Also, The Stone Ridge Quarry would see 80ha of koala and squirrel glider habitat lost forever, and both of these native animals are critically endangered and help bring in tourist money to the economy.*
