To Whom it may concern,

I am writing to express our strong support for the Ox2 Australia Solar Farm project in Muswellbrook. As an Indigenous-owned business based in the region, we are always seeking opportunities that will benefit the local community and create pathways for sustainable employment.

The development of the solar farm represents a significant opportunity for small businesses and the local workforce, particularly for our Indigenous employees. We believe this initiative aligns well with our mission to create job opportunities, promote skills development, and contribute to the transition of the Hunter Valley's energy sector.

Through our organization, we have been working to increase employment pathways for Indigenous people, including those who have previously faced barriers to entering the workforce. We are confident that the Ox2 Australia Solar Farm project will provide valuable training, employment, and business opportunities for our community, and we strongly support its progress.

We look forward to the potential benefits this project can bring to our region and are committed to continuing our work in fostering economic growth, sustainability, and positive social impact.

Thank you for considering our support for this important initiative. We look forward to any opportunities to collaborate and contribute to the success of the Ox2 Australia Solar Farm.

Kind regards
