## AGENDA

- Opening Statement by Chair
- Virtual site inspection presentation by Applicant covering the following:
  - Project Overview
  - The site and surrounding land uses
  - Mine Infrastructure Area and surface development
    - Brine storage ponds
  - Overview of the coal handling process + Underground mining examples
  - Transport routes
    - Including access roads (existing and proposed access roads for extension area)
  - Longwall operations
  - Disturbed areas
    - Examples of subsidence (north-eastern end)
    - Impact of subsidence on surface water flows (ponding effects?)
  - Ventilation infrastructure
  - Pre-drainage infrastructure
  - Southern mine water storage area
  - Aboriginal heritage sites
  - Biodiversity areas
    - Tell us about the koalas on the site and how you're managing them including koala habitat (plantings, food trees and watering points)
  - Rehabilitation areas
    - Examples of progressive rehabilitation
